

What Do Our Students Say?

“Montessori’s enthusiasm is infectious, particularly when you live and breathe it at the MMI!”

“The Course was extremely interesting – the ideas were unique, put across in a way that could be understood.”

“I liked...the opportunity to mix with so many various nationalities.”

“The lectures were absorbing... the advisers are helpful and friendly.”

“I liked the high standard of work, the emphasis on understanding the theory behind what you were doing, and always knowing there was more to learn.”

“I came looking for a structured, all-inclusive programme to offer pre-school children. I can say I have secured that. I have something tangible to take back home with me.”

“The Course has given me a great sense of respect for all individuals who dedicate their lives to the education of children; and above all, I now have strengthened awe and love for the children themselves.”

The aim of the Maria Montessori Institute (MMI) is to keep alive, and to disseminate as widely as possible, the educational insights of our founder, Dr Maria Montessori, developed over a lifetime of working with children around the world. The Montessori method remains compatible with the demands of our complex modern society, being based on the belief that every child is born with creative potential, the instinct to learn and the right to be treated as an individual.

The MMI is authorised to run training courses by the Association Montessori Internationale (AMI), set up in Holland by Dr Montessori herself to safeguard the integrity and the essential principles of her method. It is the only college in this country to deliver the AMI syllabus through AMI-qualified instructors and award diplomas on the results of AMI examinations, thereby providing authentic international Montessori qualifications in the UK.
